

PLUGS, STRAIGHT CONNECTORS REDUCERS

Installation Tool free
Tensile strength
Suitable for blower laying

PLUGS, STRAIGHT CONNECTORS REDUCERS

Necessary to connect microtubes, of the same diameter or different diameters, or to close the microducts. They are tensile and pressure-tight.

TECHNICAL SPECIFICATIONS

MATERIAL	Polycarbonate
LOCKING SYSTEM	POM, locking with steel teeth O-RING Nitrile
MATERIAL	Nitrile
MATERIAL BLOWING PRESSURE	16 bar @ -20 ÷ +50 °C
BREAKING PRESSURE	> 26 bar
SEAL GAS	Leakage at 16 bar: ~ 1ml / minute - leakage at 0.7 bar: ~ 0.1ml / minute
WATER RESISTANCE	The joints resist a water column of 6 meters
INSERTION FORCE	50 N max (5kg)
SEAL	125N min 10mm microducts
CLOSING PLUGS	Available in versions with diameter: Ø 12mm and Ø 14mm
REDUCERS	External Diameter / Internal Diameter: 14/12 - 12 / 10mm
