

VISUAL FAULT LOCATOR

Ergonomic
Precise in fiber processing
Suitable for cables up to 3mm

VISUAL FAULT LOCATOR

The Visual Fault Locator (or laser pen) is a 650 nm laser source that emits red light. It is an essential tool useful to quickly and easily identify any fiber or locate any signal interruptions in the connections.

TECHNICAL SPECIFICATIONS

ADAPTABLE CONNECTORS	With ferrule ø 1.25mm	With ferrule ø 2.5mm
WORKING WAVE LENGTH	650 ±20 nm	
OUTPUT POWER	>10 mw	
COVERED DISTANCE	8 - 10 km	
MODULATION	Fixed or pulsed	
STORAGE TEMPERATURE	-20 / +60 °C - <90% RH	
USE TEMPERATURE	-10 / +50 °C - <90% RH	
POWER SUPPLY	n.2 AA batteries	
WEIGHT (GR)	80
