# CABLE JETTING MACHINES

## ACCESSORIES

Inserts for cables and ducts of different caliber, stand to lift coils, air compressors: a wide range of accessories necessary for the use of the jetting machines.

### CABLE INSERTS

Set of 6 to lip seals:

6/12 Cable Ø 5,4-6.3mm

7/12 Cable Ø 6,4-7.3mm

7/12 Cable Ø 7,4-8.3mm

### DUCTS INSERTS

Set of inserts for microducts or ducts:

Ø 6 ÷ 50 mm

### REEL LIFTING STAND

Complete system with two trestles with retractable feet for transport and positioning on the ground, reel holder shaft and reel locking flanges made of galvanized steel with crank lifting.  
Capacity 1.6 ton

### AIR COMPRESSOR

Air compressor with a cooler that allows you to lower the temperature. This solution allows to increase the performance of the machine during the laying phase.

- KAESER MOBILAIR 17/15 bar motor-driven compressor with petrol engine, air-cooled, belt drive

- ROTAIR motor-driven compressor model VRK 215 fiber plus / 15 bar and constant blowing temperature

### ADDITIONAL BLOWING HEAD

Additional blowing head for Minisnake cable jetting machine. Allows the management of ducts with diameter Ø 32 ÷ 50 mm

### LUBRICANTS

Products necessary to facilitate the sliding of the cables in the microducts. Characterized by high viscosity and resistance to low temperatures.
