

MINISNAKE JETTING MACHINE

For cables diameter 4 ÷ 10 mm
Double belt drive
Complete with inserts for cables and pipes

MINISNAKE JETTING MACHINE

The Minisnake is able to lay, thanks to the blowing system, over 100 meters of cable per minute, developing a pushing force greater than 300 N. It allows you to install cables with a diameter between 4 and 10 mm in microducts with a diameter between 5 and 16 mm.

TECHNICAL SPECIFICATIONS

CABLES DIAMETER	4-10 mm
MICRODUCTS DIAMETER	5-16 mm
OPERATION	Pneumatic
MAXIMUM AIR CONSUMPTION	0.2 m³/min
THRUST FORCE	0-300 N
LINEAR PRESSURE ON THE CABLE	100 N/cm
RECOMMENDED SPEED	110 m/min
MAXIMUM AIR PRESSURE	15 BAR
DIMENSIONS LXPXA	580 x 300 x 320 mm
DIMENSION OF THE LXPXA TRANSPORT CASE	640 x 390 x 410 mm
MACHINE WEIGHT	20 kg
TOTAL WEIGHT	33 kg
WARRANTY	1 year
